V. Strategic Plan Update:
Kim Neher updated the board on Barbara Walters’ recent travel schedule. Barbara visited the Oroville City Council at the start of July and the Omak City Council in June. She will be traveling to the Moses Lake City Council in August.

Kim referenced the project updates in the board packet and gave the following updates:

Goal 1: Slow start gathering contacts for broadband partner organizations, but now on track.
Goal 9: Completed brand audit and began writing value proposition. Will be launching a brand awareness survey soon.

Goal 10: Project lead Anni Ponder has accepted a position with another organization. Newly hired bilingual outreach specialist Suzy Nieto will take over as the project lead. The project group had a good amount of interest in membership for the Bilingual/Bicultural Advisory Council and will be narrowing the committee to 6-8 members out of an original 11 applicants. The first BBAC meeting will take place in September.

Goal 23: Project team is finalizing the core competencies for staff and is beginning to write a charter for their second phase of work.

VI. Strategic Plan Goal 11 Charter Presentation:
Goal 11 is to promote data-driven decision making throughout the organization by making internal and external data points centralized, organized, and accessible. Chad Roseburg explained the current efforts to minimize the amount of data entry and collection being done by staff in favor of more automated data collection. He explained that the first step will be to make the data easily accessible to frontline staff and managers and down the road increase its visual appeal.

VII. Strategic Plan Goal 15 Charter Presentation:
Goal 15 is to identify and regularly connect with key stakeholders in each community. Michelle McNiel explained that the team is gathering information on who the various stakeholders in each community are. Branch staff will also be invited to add any important community leaders that may be missing. When this information has been gathered, the group will develop a plan to help librarians become more connected with their community and equipped to engage with their local leaders.

VIII. Resolution 19-13: Code of Conduct
Angela Morris reviewed the Code of Conduct Policy. The District has never had an overarching code of conduct. Most library systems that were researched had some policy in place. Branch supervisors helped develop the policy and legal counsel also advised on the policy. Angela also pointed out that the policy covers conduct on virtual sites as well. There will be staff training in September to teach staff how to use the policy and work with patrons to explain the policy where necessary.

The Board discussed various features of the policy. The resolution was tabled until the August Board meeting to allow for a few minor changes to the policy.
IX. Executive Director's Report:

Wenatchee Library:
On July 9, contracts were signed with Rhine Demolition to begin asbestos abatement on July 22. It will be about a 5-week process. We are going to bid on the renovation project within the next two weeks.

The community has decided the new location will be on Camellia Street and the design will include a multi-use community center/library/perk. There will be another community forum on August 1st. Kim Neher will attend.

Tonasket
Work has begun to replace the roof. The A/C had to be kept off during construction which caused the library to close early for several days. In late June rainstorms caused water to get into the building despite coverings put up by the roofers. 60-70 books were damaged and several drop ceiling tiles fell and caused a mess. July 23rd another rainstorm came through the area and more water got into the building. This damaged more ceiling tiles and about 350 books had to be discarded.
